Finally, I am on a conference call and I will be for most of the day, so if you could please respond by e-mail, that would be helpful.

Thank you,  
Jenny

Jason,

Attached are 4 documents.

The word document explains the sampling events and who sampled where.

The three excel tables are: 1) A spreadsheet of the information collected from sample locations, 2) the CRL surface water and monitoring well data compared to historic Wolverine-collected data, and 3) the preliminary results we have (and 4 historic Wolverine results we have found so far).

Let me know if this is enough, or if you need it presented differently.

Thank you,
